

June 9, 2013

To whom it may concern:

I am writing on behalf of Shane Bryson in support of his application for an extension of his funding from Nova Scotia Works for his enrollment in the IT: Web & Mobile Application Development Program at New Brunswick Community College in Moncton, NB.

Shane needs to complete the following courses to graduate from the program:

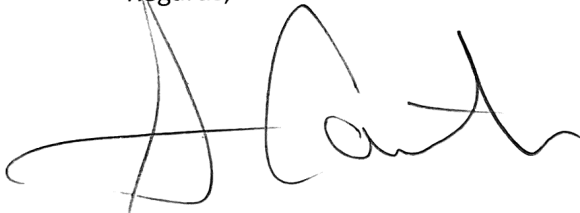

- PROG1189 Comprehensive Development Project
- PROG1192F – Practicum: IT

Shane was unsuccessful in completing the Comprehensive Development Project this past spring. If Shane enrolls in the project again, I believe that he can complete it successfully if he fully applies himself and treats it as a full-time job for the full three weeks duration of the course. To increase his likelihood of success, I would encourage Shane to audit some or all the following courses which he has already completed. By doing so, Shane will have the skills and knowledge required to commence the comprehensive project, as they will be freshly ingrained in his mind.

- PROG1179I – N-Tier Development – Offered Fall 2023
- PROG1024I – Advanced Topics – Web Dev – Offered Winter 2024
- PROG1305G – Android Programming – Offered Winter 2024.

Please let me know if you have any questions.

Regards,
