Comments: Shawn passed all of the Fall 2021 courses except one – Introduction to Programming. Unfortunately, this did affect his ability to successfully complete the program on time. I do believe that Shawn does have the ability to complete this program. He has shown a very strong work ethic throughout the term. He has completed all of his assignments, and has been engaged during class lectures. I have met with Shawn on a few occasions throughout the term and I can tell he has a very strong desire to be successful in the program.
